Dear Olga,

It is a wonderful feeling to give recognition for work well done and a *"Thank You"* is a small reward for the dedication, professionalism and diligence in which you have made possible that **FARMACIAS WALGREENS** continue it's expansion program in Puerto Rico.

As in all organizations, achievement is only made possible by the efforts of a team and it's leader. When they perform at a level of above and beyond their responsibilities, that success must be recognized and acknowledged .

It is with great respect and admiration that I send this letter to you commending the performance of you and your team in **SOLTERO MUÑOZ & ASSOCIATES** with the design of our stores in Puerto Rico.

We look forward to many more years of a successful business relationship and friendship.

Very truly yours,
